

Mark Harmon - Full-stack developer

Full stack developer and photographer with a passion for precision and learning. I come ready to grow with the company to produce creative solutions to complex problems.

Skills

React, Redux, Vue, Git, Express, PostgreSQL, Sequelize, MongoDB, Mongoose, Node, Python, Linux, JWT Auth, HTML, CSS, JavaScript, Photoshop, Mircom TX3, Django, Bootstrap, React-Bootstrap

Projects

Connect Four, General Assembly — March 2022

Front end Binary/Matrix themed connect four incorporating HTML, CSS, JavaScript, and React deployed on Surge

Foodle, General Assembly — 2022

Full Stack Project with collaborations from across the US. Handling front-end planning and implementation. Tech used: React, Redux-Thunk, PostgreSQL, Sequelize, Express, CSS, and full JWT Authentication.

Holicy, General Assembly — 2022

Full Stack social media app created for my capstone project at GA to promote a greener earth. This project was individual work. Tech Used: React, PostgreSQL, Sequelize, Express, CSS, full JWT Auth, Bootstrap, and React-Bootstrap.

Experience

HOA Management, Sun Realty Home Pros — 2019-Present

During the course of my work with Sun Realty I'm tasked to oversee contractors, provide image proof for insurance, clarify maintenance issues, update Mircom TX3 Telephone Entry Security System.

Photographer/Photoshop Artist — 2008-Present

As a freelance photographer and retouching artist I have efficient and eloquent work in fashion, lifestyle, boudoir, and monochrome.

Education

General Assembly Software Engineering Immersive 2022

PicoCTF CyberSecurity Training 2022 - Present
